

**Whether they're
pursuing new breakthroughs
or inspiring young minds,
your people are helping
build a better tomorrow.**

**Our reason for being is to help them succeed.
And protect them every step of the way.**

ORION is Ontario's research and education network, providing an on-ramp to others like it across Canada and around the world.

Only ORION can connect you to whatever and whomever they need to achieve your goals.

Thought leaders. Innovators. Researchers. Schools. Colleges. Universities. Institutes. Laboratories. Observatories. Hospitals. Governments. Scientists. Teachers. Students. Mathematicians. Engineers. Astronauts. Visionaries. Advanced Research Computing facilities. Databases and resources ranging from smart classroom technology to the Large Hadron Collider.

We can open doors that you never even knew existed.

When you join ORION, you become part of an elite group of researchers, educators, students and innovators with access to resources that can be difficult or impossible to access any other way.

Suddenly, it's easy to find the data and tools you need, as well as people who can help solve problems, collaborate on research or form partnerships to help bring ideas to fruition faster.

And with ORION's dedicated network, all your communications, applications and critical data are more secure than they could ever be on a network open to all.

1.7 million Ontarians rely on ORION to help them change the world.

Many community members tell us they couldn't do the vital work they do without ORION's dedicated fibre optic network, lightning-fast Internet speeds, shared IT services,

obsessive focus on cybersecurity, and our willingness to customize our offerings to meet their needs. Discover what ORION could do for you.
